Syed Imon Rizvi

ICT Project Manager | Certified Agile & Scrum Delivery Lead | SAP & Cloud Transformations | PMP®-trained | Driving Operational Predictability
Pakistan

Summary

I am a transformation leader passionate about moving beyond standard Agile rituals to build teams that are truly resilient, engaged, and high-performing. In my experience, many organizations suffer from 'procedural drift'—where ceremonies become a box-ticking exercise rather than a driver of value. To address this, I developed the Aligile Ethos, a framework that integrates core leadership values—ethics, justice, and human-centric design—with modern Agile practices. My goal is simple: to foster profound psychological safety and intrinsic motivation, turning disengaged groups into self-organized, collaborative teams. I combine this human-centric philosophy with deep technical expertise in SAP, Cloud (AWS/Azure) migrations, and digital product lifecycles. I've helped global organizations increase operational agility and team velocity while ensuring that technology serves the people using it. Core Impact: Operational Agility: Driven enterprise-wide adoptions, resulting in a 50% increase in agility across global teams. Team Performance: Boosted sprint velocity by over 45% through servant leadership and dedicated coaching. Strategic Delivery: Orchestrated end-to-end lifecycles for complex FinTech and ERP initiatives. Expertise at a Glance: Agile & Transformation: Creator of Aligile; deep experience in SAFe, Kanban, and Servant Leadership. Technical Strategy: SAP S/4HANA Transformations, DevOps culture, and Cloud Enablement. Program Leadership: PMP-trained (certified 2023-2026) with a focus on risk, financial tracking, and Lean portfolio management. Tech Stack: Jira, Azure DevOps, Confluence, Miro, and AI-driven process automation. Relocation Note: I am currently based in Karachi and strategically seeking a move to New Zealand. I am eligible for the Accredited Employer Work Visa (AEWV) and am eager to connect with New Zealand-based organizations looking to foster lasting, sustainable change through deeper principles of agility. I'd love to have a kōrero

(conversation) about how we can drive meaningful transformation together.

Experience

Mercer & Mills

Founder and Principal ICT Project Manager

January 2026 - Present (6 months)

United States

At Mercer & Mills, we've redefined the digital service landscape by bridging the gap between high-level creative vision and industrial-grade project management.

As a PMP®, PSM II™, and Enterprise Agile Coach, I founded Mercer & Mills to solve the primary friction point in the creative industry: the lack of structure and predictability. By applying the same rigor used in SAP and AI transformations to the world of publishing and digital production, we provide a "Zero-Failure" infrastructure for global authors, CEOs, and thought leaders.

The Mercer Method™

We utilize a proprietary Agile framework—The Mercer Method™—to manage complex creative projects. This ensures our clients across the USA, UK, and Canada experience a seamless production lifecycle defined by bi-weekly sprints, PMP-certified quality gates, and 100% delivery transparency.

Our Integrated Production Mills:

The Literary Mill: End-to-end publishing solutions, including elite ghostwriting, editorial strategy, and global Amazon KDP distribution (Ebook, Print, Hardcover).

The Visionary Mill: High-impact 2D/3D animation, bespoke children's book illustrations, and modern web development architectures.

The Sonic Mill: Custom music composition, atmospheric soundscapes, and professional audiobook production.

The Structural Mill: Specialized consulting in Agile transformation, PMP-led project recovery, and digital brand architecture.

We don't just provide digital services; we engineer legacies.

Awais LLC

Senior Project Manager / Technology Consultant / Agile Coach

September 2024 - Present (1 year 10 months)

Anaheim, CA

Awais LLC is a specialized consultancy providing IT project management and digital transformation from beginning to end as well as enterprise Agile coaching. We'll take the cumbersome SAP implementation, cloud migration from your hands and do the project. With DevOps in our sights and cutting edge digital projects on the horizon, your company will be led on a journey from any system to recognition and globalization. We guide organizations through complex initiatives including SAP implementations, cloud migration, DevOps strategy, and large-scale digital programs.

- Helped several Scrum Masters and Product Owners to become more effective in the role within 4 global Agile teams, resulting in a 35% increase in delivery predictability as measured on progress toward commitments made (a.k.a. "Say/Do ratio").
- With Kanban, improved a client's SAP support process, and reduced the average time to resolution for high-priority FI/CO module defects by 60% (from 5 days down to less than 2).
- Introduced SAFe practices such as PI Planning, this enabled an end to blush for program teams, as well as reduced time lost to dependency delays by 50% across the program. And Lean-Agile best practices such as WIP constraints were used: 35% Downstream of Value Delivery Dimensions at-a Glance.
- Streamlined the delivery value stream with Lean-Agile best practices such as WIP constraints, saving more than 35% of average feature cycle time (from 45 to 28 days).
- Get our teams to adopt CI/CD best practices, make our delivery automation faster. In turn this increased our release frequency from once a month (a risky venture) to an entirely regular weekly cycle.
- Led commando training in trust and continuing improvement through intensive teams workshops. Results of this effort were seen on the surveys that power the Quarterly Development Support Index: a 20-point increase in team health and engagement scores.

Agile Supernova

Senior Project Manager

September 2024 - Present (1 year 10 months)

Karāchi

- The Aligile framework was developed and authored by me. Its ethos of ethics pervades an organization. Our conviction is: without a moral compass this will not be sustainable for agile transformation!
- I provide IT Project Management and operational excellence, Agile transformation service, coaching and scrum implementation.
- I am one of the founders, a principal consultant and an Agile Coach for Aligile's principles. Guiding clients from diverse industries, the focus in turn combined Agile lifting and Transformational Change while maintaining extremely strict confidentiality on behalf of each customer. •
- My unique expertise allows organizations to achieve major uplifts in Agile capabilities and to set a goal of increase team velocity within three sprints.
- Agile uplift delivered through training, coaching and value stream review. This can boost productivity while reducing defect rates. •
- The Agile mindset is instilled in each member as servant leader. We aim for as close to a 100% fit with Agile practice as possible and look towards shortening the time-to-market. •
- I interact with stakeholders to bring their goals into alignment with Agile principles. This improves collaboration and raises stakeholder satisfaction. •
- I foster a "One Team" approach across organizations, encouraging enhancements in cross-functional collaboration.

Small World Financial Services

Scrum Master / Agile Coach

November 2023 - June 2024 (8 months)

Karāchi

Small World FS is a world-leading international payment services provider, with a specialty in secure and effective money transfers to more than 180 countries. With over 350,000 pick-up points and operations in over 65 countries, customers can make convenient transfers via mobile apps, a simple

website, and multiple branches globally. Committing to competitive exchange rates and outstanding customer service in more than 20 languages, Small World is committed to shrinking the world and making it more interconnected.

- I led Agile transformation initiatives. This reduced project delivery time by 15% and increased team productivity 20%.
- Cross-functional teams received guidance through the Agile process. Much effort was made to ensure that initiatives were aligned with business objectives.
- Agile and Scrum practices were implemented. With this approach, the team developed a habit of continuous improvement and innovation.
- Scrum events were simplified for members to do together with other organizations or participants. Agile values the transparency and cooperation gained through this process.
- Obstructions were prevented such that work within the sprint yielded improved efficiencies and more focus on deliverables.
- Strong leadership and coaching skills served my team well--the practice of agile principles depended entirely upon my efforts to promote them.
- Trained colleagues on Agile methodologies. As a result, Agile adoption increased substantially by 30%.
- Worked with the Product Owners and Development Teams to raise product quality and customer satisfaction.
- I resolved conflicts between team members in order to ensure a peaceful and productive environment.
- I created a cooperative working environment. This encouraged open communication and sharing of ideas across teams.
- Working toward continuous improvement, the team's velocity went up by 15%. Developed clear procedures for Agile practices, making sure processes cannot be infringed.

- Implemented continuous improvement strategies, delivering quality product increments with a 78% increase in quality.

ITSAS LLC

5 years 8 months

Project Manager / Scrum Master

January 2014 - September 2018 (4 years 9 months)

United States

ITSAS, LLC is a dynamic IT consultancy firm dedicated to empowering businesses through cutting-edge technology solutions. With a strong focus on project management, they utilize Agile and Scrum methodologies to deliver projects with precision and agility. Their proficiency in Enterprise Resource Planning (ERP) systems, including SAP, enables organizations to optimize their operations and enhance productivity. By crafting customized IT strategies, ITSAS, LLC helps clients achieve their business objectives,

fostering innovation and maintaining a competitive edge in today's fast-paced digital world.

- Collaborated with sponsors to craft project charters, ensuring 100% clarity in project objectives.
- Assembled and led a five-member Agile team, enhancing efficiency by 50% through strategic resource analysis.
- Analyzed project scope and developed detailed work breakdown structures and activities to ensure comprehensive project planning.
- Devised time-bound schedules and budgets, achieving 100% task completion within established timelines.
- Formulated quality and communication plans, resulting in 10% fewer revisions and improved stakeholder satisfaction.
- Anticipated potential risks and executed thorough risk analysis, planning 50% more effective response strategies.
- Developed and implemented a stakeholder management plan, boosting engagement by 80% and ensuring alignment with project goals.
- Designed streamlined workflows to facilitate 100% faster onboarding and guidance for team members.
- Managed project progress with a focus on conflict resolution, ensuring 90% smoother operations and prompt conflict resolution.
- Coordinated with vendors and freelancers, achieving 70% cost savings and 50% improved project timelines.
- Verified that all deliverables met quality standards, ensuring 100% acceptance by sponsors.
- Efficiently closed projects and documented lessons learned, increasing knowledge retention by 40% for future projects.

Junior Scrum Master

February 2013 - January 2014 (1 year)

United States

Actively supported a senior Scrum Master in facilitating all Scrum events, helping to create a productive and positive environment for the team.

Managed the team's Jira board with a focus on data hygiene, ensuring tasks were consistently updated to provide clear and reliable reports for senior leadership.

Worked closely with the Product Owner to prepare the backlog for refinement, contributing to a steady and well-understood stream of ready work for the team.

Helped the team improve its sprint predictability by 25% by assisting in the tracking and visualization of sprint commitments versus actual delivery.

Contributed to a 40% reduction in the average age of impediments by diligently tracking blockers and escalating them for faster resolution.

Shadowed senior Scrum Masters during advanced coaching and conflict resolution sessions to accelerate my professional growth and facilitation skills.

Championed open communication and collaboration, helping to foster a trustworthy and psychologically safe environment for the Development Team.

Guleyaas Studios

Media Project Manager

June 2007 - January 2013 (5 years 8 months)

Karāchi, Sindh, Pakistan

At Guleyaas Studios, I served as a creative digital media consultant, delivering a diverse range of services focused on excellence and client satisfaction.

I managed creative writing projects with 90% adherence to schedules and budgets. My expertise in typography and graphics enhanced visual appeal, while my concept-to-delivery videography services achieved 100% customer satisfaction. I provided audio mastery, elevating project quality, and composed impactful background music, boosting project impact by 70%. Committed to flawless translation and subtitling, I ensured top-tier quality. By adopting an Agile approach, I prioritized continuous improvement and timely delivery, maintaining 98% positive feedback. My dedication to ownership, goal focus, and efficient multitasking ensured adherence to industry benchmarks.

- Managed and delivered creative writing projects within 90% of planned schedule and budget.
- Designed visually appealing typography and graphics, enhancing client visual appeal.
- Consulted, conceptualized, scripted, filmed, and edited videos, achieving 100% customer satisfaction.
- Recorded and edited narrations, enhancing project quality and guiding clients in media projects.

- Composed, mixed, and mastered background music, elevating project impact by 70%.
- Supervised quality translations and added subtitles, ensuring 100% client satisfaction.
- Achieved 100% customer satisfaction through Agile philosophy and timely adaptations.
- Maintained 100% accuracy in project durations, consistently delivering on time.
- Prioritized customer satisfaction, ensuring 98% positive feedback.
- Managed projects with ownership, focusing on goals and task completion.
- Efficiently handled multiple creative projects with a balanced approach to task divisions.
- Ensured adherence to industry benchmark practices in all projects.

Prime Wireless Inc

Corporate Store Sales Manager

February 2005 - May 2007 (2 years 4 months)

United States

Prime Wireless, LLC was a prominent franchise company for Verizon Wireless in the USA, operating multiple stores across Missouri, Texas, and other states. As a corporate store manager at their Chesterfield Commons location on THF Blvd in Chesterfield, Missouri, I oversaw the sale of Verizon Wireless services, mobile contracts, phones, and accessories. Prime Wireless was dedicated to providing comprehensive contractual services to Verizon's customers, ensuring a seamless and satisfying experience for all.

- Strategic Employee Recruitment: Recruited committed employees, enhancing team effectiveness by 70%.
- Efficient Team Formation: Formed a dedicated sales team, boosting sales performance by 90%.
- Effective Sales Training: Conducted impactful training sessions, workshops, and seminars for 80% better new sales associate performance.
- Data-Driven System Development: Created central database and Point of Sales applications, improving efficiency by 70%.
- Optimized Inventory Decisions: Finalized inventory orders, achieving 95% accurate stock management.
- Strategic Pricing Policies: Contributed to pricing policies, resulting in 100% enhanced profitability.
- Collaborative Solutions: Collaborated with company officials, identifying and solving problems, boosting efficiency by 80%.

- **Diverse Problem Resolution:** Coordinated with senior managers, resolving diverse issues, achieving 100% smoother operations.
- **Knowledge Resource & Support:** Assisted store managers and officials, providing insights for 100% effective decision-making.
- **Customer Relationship Management:** Developed strategies to enhance customer satisfaction and loyalty.
- **Performance Monitoring:** Regularly reviewed team and individual performance to ensure alignment with business goals.
- **Compliance and Safety:** Ensured all operations adhered to company policies and legal regulations.
- **Marketing and Promotions:** Implemented local marketing strategies to drive store traffic and sales.

Wireless 4 U Inc

3 years 1 month

Store Sales Manager

March 2003 - January 2005 (1 year 11 months)

United States

Wireless 4 U, Inc. was a leading franchise company representing major wireless carriers such as T-Mobile, AT&T, and Sprint. With multiple locations in shopping malls across Missouri and other US states, the company specialized in offering a wide range of wireless services, mobile contracts, phones, and accessories. As a store manager at their kiosk in South County Shopping Mall in Saint Louis, Missouri, I facilitated the delivery of comprehensive contractual services to clients and customers, ensuring a seamless and satisfying experience with the latest in mobile technology.

- **Impressive Sales Growth:** Elevated yearly sales from \$210K to \$360K, achieving a 71.43% increase.
- **Record-Breaking Performance:** Achieved a record high of 125 net sales in December, a 60% boost from the previous year.
- **Multi-Line Utility Advocacy:** Successfully conveyed the benefits and cost-effectiveness of multiple lines to potential 1-phone buyers.
- **Efficient Sales Tracking:** Managed daily sales records using POS, daily activity reports, and software tools.
- **Comprehensive Customer Management:** Oversaw credit applications, billing, payment history, activations, and phone line eligibility using EROES.
- **Optimized Inventory Management:** Collaborated with engineers and buyers to determine efficient inventory levels, achieving 50% cost savings.

- Data-Driven Problem Solving: Analyzed management information, defining operational and sales distribution issues.
- Continuous Learning Initiatives: Participated in monthly T-Mobile account representative trainings, enhancing industry knowledge.
- Exceptional Mystery Shopper Feedback: Received 110% feedback by excelling in mystery shopping evaluations.
- Customer Relationship Building: Developed strong relationships with customers, enhancing loyalty and repeat business.
- Team Leadership and Development: Led and mentored a team of sales associates, fostering a high-performance culture.

Wireless Sales Consultant

January 2002 - February 2003 (1 year 2 months)

United States

- Rapid Learning & Quick Mastery: Absorbed business knowledge through fast-paced training, achieving proficiency in record time.
- Innovative Sales Strategies: Pioneered effective ideas for streamlined sales and enhanced customer satisfaction.
- Compelling Graphic Design: Created captivating leaflets, brochures, charts, and graphics showcasing phone features, attracting 60% more customers.
- Consistent Sales Growth: Elevated sales consistently, maintaining a 50% growth trend.
- Efficient Paperwork Assistance: Aided store manager(s) in paperwork and cell phone activation, optimizing time management.
- Deadline-Driven Multitasking: Successfully managed multitasking, delivering assignments on time even under tight deadlines.
- Pressure-Tested Performance: Thrived under pressure with enduring consistency, including 50% extended hours.
- Customer Relationship Building: Developed strong relationships with customers to enhance loyalty and drive repeat business.
- Product Knowledge Expertise: Maintained up-to-date knowledge of the latest wireless products, plans, and promotions to effectively advise customers.
- Sales Target Achievement: Consistently met or exceeded monthly sales targets and quotas.
- Customer Needs Assessment: Conducted thorough assessments of customer needs to recommend appropriate products and services.
- Conflict Resolution: Handled customer complaints and issues with professionalism, ensuring a positive resolution and customer satisfaction.
- Cross-Selling and Upselling: Identified opportunities to cross-sell and upsell additional products and services to maximize sales.

- Team Collaboration: Worked collaboratively with team members to achieve store goals and provide excellent customer service.

Jewels & More, Inc

Sales Associate

August 2000 - January 2002 (1 year 6 months)

Jewels & More was a distinguished jewelry sales company located in Crestwood Mall in Saint Louis, Missouri, specializing in a diverse array of exquisite jewelry crafted from platinum, gold, silver, diamonds, and cubic zirconia. As my first professional role, I began my career as a store sales professional at Jewels & More, where I gained invaluable experience in delivering exceptional customer service and assisting clients in selecting the perfect pieces to suit their needs and preferences. The company was renowned for its commitment to quality and elegance, offering a wide selection of jewelry that catered to a variety of tastes and occasions.

- Rapid Skill Acquisition: Mastered the jewelry sales craft swiftly, boosting the customer base by 50% through exceptional behavior.
- Precious Jewelry Knowledge: Acquired in-depth knowledge of gold, silver, and diamond jewelry, enhancing product expertise.
- Customer Relationship Building: Developed strong relationships with customers, enhancing loyalty and repeat business.
- Consistent Sales Growth: Sustained a 50% sales growth trend through continuous effort and strategic selling techniques.
- Skilled Repair Expertise: Gained proficiency in repairing small jewelry and watch issues, resolving 60% of problems.
- Product Presentation: Effectively displayed and presented jewelry pieces to highlight their unique features and value.
- Customer Needs Assessment: Conducted thorough assessments of customer preferences to recommend suitable jewelry options.
- Conflict Resolution: Handled customer inquiries and issues with professionalism, ensuring a positive shopping experience.
- Cross-Selling and Upselling: Identified opportunities to cross-sell and upsell additional products to maximize sales.
- Inventory Management: Assisted in managing inventory to ensure optimal stock levels and product availability.
- Team Collaboration: Worked collaboratively with team members to achieve store goals and provide excellent customer service.
